

Dear parents/caregivers,

For homework in Term 2, we are taking part in the amazing race. Each week the students will have a different destination and will need to complete activities on this destination. All work must be handed in on Fridays and should be completed in the student's homework books.

Points will be awarded for:

1. Presentation
2. Quality of information (This must be in the students own words and any main ideas should be explained in relevant detail)
3. Extra effort and diligence

Because this homework requires a certain degree of research, internet and library resources will be available to the children at school. If you don't have access to the internet at home the children can use it at school if needed. We have technology that can be accessed at interval and lunchtime also.

Damian Burden
